ORTHOPEDIC & SPINE  
INSTITUTE  
AT ST. LUCIE MEDICAL CENTER

The Orthopedic & Spine Institute at St. Lucie Medical Center offers state of the art amenities. The 35-bed all private room Institute is designed to feel like an upscale hotel rather than a hospital.

Patients and visitors can take advantage of the plush coffee lounge and lobby area with flat screen television, wireless internet access and comfortable seating. Research indicates a positive correlation between personalized healing environments and patient outcomes.

Each private room is equipped with safety enhanced beds, the latest orthopedic equipment, vital sign monitoring systems and advanced medication delivery systems in addition to the electronic health record system.

Using the latest advances in the field of Orthopedics and Spine care, the dedicated team of professionals at St. Lucie Medical Center attend to your every need. Our team of experts include Board Certified Orthopedic Surgeons and Neurosurgeons with extensive training and Orthopedic Certified/trained Professional Nurses, Physical Therapists and Technicians. Our surgeons use a minimally-invasive, or muscle-sparing technique, to ensure a faster recovery time, and save precious tissue during surgery.

Our staff members are prepared to manage joint replacements, back and neck surgery including spinal fusion, fracture repairs, sports related injuries, pain management, and rehabilitation services. Our team of experts will provide you with every available option to help you make the right health choices.

The Orthopedic & Spine Institute at St. Lucie Medical Center offers comprehensive solutions for:

- Joint Disorders
- Back Pain
- Fractures
- Sports related injuries
- Arthritis
- Joint Discomfort
- Ligament & Tendon injuries

## Pre-Operative Orthopedic Class

Our multidisciplinary team offers free, weekly Pre-Operative Classes to let you know what to expect in all aspects of your hospitalization and recovery from surgery. Call to register today: (772)335-4000 ext 3000.
